

SYNBITECH2019

The must-attend international conference for anyone engaged in synthetic biology industrialisation, commercialisation, investment, policymaking and research. The event will focus on the key opportunities and challenges for building a multibillion-dollar synthetic biology industry that will contribute to the fast-growing bioeconomy.

6 Reasons to attend

- ✓ **Meet investors** who can fund your ideas
- ✓ **Connect with partners** who will collaborate with you
- ✓ **Be heard** by key policymakers influencing the bioeconomy
- ✓ **Debate big ideas** to shape the future of the industry
- ✓ **Hear inspirational talks** from international thought leaders
- ✓ **Discover industrial and commercial opportunities** for your innovations in the bioeconomy

If you're looking to hear world leaders' perspectives on the factors that are truly influencing the transformation of synthetic biology from a multimillion, to a multibillion-dollar industry, then SynbiTECH 2019 is not to be missed.
