

SYNBI TECH 26

Sponsorship & Exhibitor Prospectus

Building a multibillion-dollar synthetic biology
industry with positive impact

1st-2nd December 2026 | IET London: Savoy Place

Building a multibillion-dollar synthetic biology industry with positive impact

1st-2nd December 2026 | IET London: Savoy Place

SynbiTECH is the UK's leading international forum for people engaged in engineering biology business, investment, policymaking, science and research.

Addressing key opportunities for growing the engineering biology industry, the event will focus strongly on business and investment, as well as sustainability, climate change and societal impact.

Experts from around the world will discuss the opportunities created by combining biology, engineering and technology as well as cutting-edge solutions that are changing the industry. Our renowned speakers come from a diverse range of fields and will share their opinions, insights and expertise - championing engineering biology's true potential in the global economy and its role in solving world challenges.

Running for the sixth time, this major UK engineering biology business conference will attract more than 400 delegates and speakers. As well as sparking international media attention, the SynbiTECH 2026 event is a valuable networking opportunity - with key industry players enthusiastic to learn about latest innovations and trends in engineering biology.

Taking place at the prestigious IET London: Savoy Place in central London, sponsors are offered a variety of advertising and business exposure opportunities, both in the official event brochure and throughout the conference venue. As well as our Platinum, Gold and Silver sponsorship packages, there are up to 30 exhibition spaces available this year in the prime conference networking area where breakfast, coffee breaks, lunch, and additionally we are offering the opportunity to sponsor our Champagne Reception in the evening of day one.

Sponsors will be given prized exposure at the heart of the event through dedicated meeting points in high traffic areas of the venue. Become a key player in SynbiTECH 2026 and present your company to a highly engaged global customer base at this year's event.
